E-mail: honeyuday81@gmail.com

Contact: +91 8897957748

Location: **Bangalore, Karnataka**

PROFESSIONAL SUMMARY

- **JAVA DEVELOPER** with overall 5 years' experience in design, develop and maintain java applications with strong emphasis on micro services architecture using JAVA_J2EE technologies, Spring Boot & KAFKA Framework. Strong knowledge in local development, enhancement & interface development and defects fixing.

Seeking a challenging career in the field of software development where I can create value for company by utilizing technical proficiencies in JAVA-J2EE and growing along with the company.

Skills

Programming Languages: Java, Info Basic
Framework : Spring Boot, Kafka
Databases : Postgres SQL
Version Control : Git
Build tools : Maven.
Cloud Platform : PCF, AWS
Log Analysis Monitoring : Splunk
Code Repository : Bit Bucket, GIT HUB, Source Tree
API Testing : SoapUI, Postman

Certifications

JAVA

ABC For Technology Training

BANGLORE, KARNATAKA, 2019

Work History

System Engineer

TATA Consultancy Services India Limited

Associate Consultant

Capgemini Technology Services India Limited

Jr.Technical Consultant

Stoics Software Development India LTD

Projects

Spring Boot Expertise

- Developed and maintained microservices using Spring boot , delivered efficient and highperformance solutions.
- Designed and implemented RESTful APIs using Spring Boot, enabling seamless communication between services.
- Optimized database performance by writing efficient Postgres sql queries and improving data indexing.
- Designed and maintained the data access layer mapping Java objects to database tables and optimizing query performance.
- Collaborated with cross-functional team to gather requirements, analyze user needs, and deliver software that met client expectations.
- Implemented best practices in code development, contributing to code quality and maintainability.
- Utilized SonarQube for continuous code quality assessment, ensuring adherence to coding standards and identifying areas for improvement.
- maintained a Jenkins CI/CD pipeline, automating build, test and deployment processes, resulting in faster and more reliable software releases.

- Implemented Hibernate and JPA for database interactions in Spring Boot applications, ensuring efficient data access and persistence.
- Collaborated with operations team to set up deployment workflows in Jenkins, ensuring efficient and consistent deployment of applications.
- Deployed application on PCF (Pivotal cloud foundry), leveraging its scalability and reliability features.
- Practiced Agile methodologies, including scrum, to deliver software in iterative and incremental cycles.
- Actively participated in daily stand-up meetings, sprint planning, sprint reviews, and ensuring effective communication and collaboration within the team.

Infinity Expertise

	RELEASES & MODULES	TECHNICAL SKILLS	EXPERTISE
INFINITY	Releases R20 Modules Core CU AC FT MM LD	Kony Visualizer 9.0 Kony Mobile Fabric Tools: Eclipse, Postman, BitBucket, SourceTree.	Fair experience in developing the Kony based applications in Free form and MVC architecture. Web based application with Breakpoint forking. Hands on experience on integrating the third party APIs in Kony Fabric. knowledge on kony pre-defined APIs.

KEY ROLES & RESPONSIBILITIES

- Responsible for developing responsive web screens and mobile application screens as per the wire frames.
- Identified the recurring UI elements and developed reusable components to lessen load on the form UI.
- Rightly recognized and improved the look and feel of the developed form skins.
- Good knowledge on Fabric console.
- Services : Identity, Integration, Orchestration, Objects, Engagement.
- Analyzed the business data to be displayed to the end-user and identified the APIs for the same.

T24 Expertise

	RELEASES & MODULES	TECHNICAL SKILLS	EXPERTISE
T24	Releases R13 Modules Core CU AC FT MM LD	T24 Components: Desktop, T24 Browser Framework: TAFC App Servers: Jboss, OS: Windows DB: JBASE, MySQL IDE: Design Studio, Eclipse	Programming: Template Programming for application creation, Mainline routines for automation. Model Artefacts: Versions, Enquiries, Composite Screens, Tabbed Screen, Menu, Context Enquiry, Reports, Enquiries Deal slip customizations Multi-thread programming T24 Technical Skills: OFS, Browser UXP Browser Customizations.

KEY ROLES & RESPONSIBILITIES

- Develop local applications with Info basic programming standards.
- Create COS, Enquiries, Version & Reports for FT module.
- Modify Version, Nofile Enquiry, Local Routine, Reports
- Develop local multi thread routines & Templates.
- Redesign single threaded services to multi-threaded services.
- Modify enquiries, local routines, reports on LD, FT.
- Develop local templates to store queries & extract requests.
- Develop local application, reports, delivery routines, enquiries, Versions, batch routines, COB and Reporting.
- Monitor COB & modify routines to fine tune COB for better performance.
- Work on local development issues in MM, LD
- Extract data from T24 using DFE.MAPPING & DFE.PARAMETER application.

EDUCATION

NAGARJUNA COLLEGE OF ENGINEERING AND TECHNOLOGY

BANGLORE, KARNATAKA

Bachelor Of Science (B.S) Mechanical Engineering

2014 – 2018
